

## **The Saudi Arabian National Botanical Garden Initiative**

It has been the prerogative of the Saudi Arabian Botanical Society (SABS) since its inception in 2018 and its official recognition in 2020 to lead in the creation of Saudi Arabia's first national botanical garden. The National Botanical Garden will showcase Saudi Arabia's natural botanical heritage through exhibits and activities. As of July 2021 the Saudi Arabian Botanical Society has signed with Diriya Gate Development Authority to build the garden in Diriya.

For more details please follow the Saudi Arabian Botanical Society on Twitter.
